#2

Triangle

3 sides
180°

(all interior angles add up to)

The strongest shape — bridges & roofs love it.

#1

Circle

∞ (no straight sides)
360°

(all interior angles add up to)

A full turn. Wheels, planet orbits, pizzas!

#4

Pentagon

5 sides
540°

(all interior angles add up to)

Like a soccer ball patch or home plate!

#3

Square

4 sides
360°

(all interior angles add up to)

All 4 sides equal, all 4 corners 90°.

#6

Heptagon

7 sides
900°

(all interior angles add up to)

7 sides — the lucky polygon!

#5

Hexagon

6 sides
720°

(all interior angles add up to)

Bees build their honeycombs in hexagons.

#8

Nonagon

9 sides
1260°

(all interior angles add up to)

Bonus shape! 9 sides, super rare in real life.

#7

Octagon

8 sides
1080°

(all interior angles add up to)

STOP signs are octagons.
